

Paulina Kiendys

kiendyspaulina@gmail.com | www.linkedin.com/in/paulina-kiendys

Highly skilled and motivated developer with a strong foundation in building customer-centric web applications. Experienced in collaborating with cross-functional teams, utilizing modern technologies, and delivering high-quality solutions. Adept at translating design concepts into intuitive user experiences. Seeking a challenging developer position to contribute my expertise and creativity.

EXPERIENCE

Frontend Developer Intern

Jan 2023 - May 2023

Skapamer, Malmö

- Developed customer features using Handlebars.js, SASS, and JavaScript, enhancing user engagement and site functionality.
- Collaborated effectively using Figma, Monday, and MS Teams, ensuring seamless communication and design integration.
- Implemented version control via GitHub and monitored deployment using AWS.
- Leveraged GraphQL to optimize data retrieval, enhancing application performance.
- Gained valuable insights into the ecommerce industry and BigCommerce platform.

Software Developer Intern

Oct 2022 - Dec 2022

AEB Sweden Branch, Malmö

- Contributed to bug fixes and feature tasks, applying Agile methodologies (Scrum) and version control with Git.
- Expanded proficiency in Angular, TypeScript, GraphQL, and noSQL databases (ArangoDB).
- Strengthened frontend and backend skills for diverse business use cases.
- Improved communication and problem-solving abilities through team collaboration.
