EXPERIENCE

Frontend Developer Intern   Jan 2023 - May 2023
Skapamer, Malmö
- Developed customer features using Handlebars.js, SASS, and JavaScript, enhancing user engagement and site functionality.
- Collaborated effectively using Figma, Monday, and MS Teams, ensuring seamless communication and design integration.
- Implemented version control via GitHub and monitored deployment using AWS.
- Leveraged GraphQL to optimize data retrieval, enhancing application performance.
- Gained valuable insights into the ecommerce industry and BigCommerce platform.

Software Developer Intern   Oct 2022 - Dec 2022
AEB Sweden Branch, Malmö
- Contributed to bug fixes and feature tasks, applying agile methodologies (Scrum) and version control with Git.
- Expanded proficiency in Angular, TypeScript, GraphQL, and noSQL databases (ArangoDB).
- Strengthened frontend and backend skills for diverse business use cases.
- Improved communication and problem-solving abilities through team collaboration.

EDUCATION

Labour Market Training Course - .Net Programmer/System Developer   Mar 2024 - Dec 2024
Lexicon AB, Malmö
- C# - Visual Studio 2022, OOP, LINQ.
- Project management - Agile, SCRUM, UML Diagrams.
- Back-end development - SQL, ADO.Net, Entity framework core, ASP.Net Web API, MVC.
- Azure

Higher Vocational Education Courses
Medieinstitutet, Remote
- UX and Accessibility for Developers: Design Thinking.   Mar 2024 - May 2024
- TypeScript: TypeScript with React and Node.js.   Mar 2024 - May 2024
- Software Testing: GitHub Actions, Jest, Cypress.   Apr 2024 - June 2024

Higher Vocational Education - Front End Developer   Sep 2021 - May 2023
Medieinstitutet, Malmö
- HTML and CSS - responsive design, accessibility.
- Graphical tools for interface design - wireframes, Adobe XD, Illustrator.
- UX/Usability - personas, Figma.
- Dynamic web development - API development, Node, Express, MySQL, ORM, Postman.
- Working in projects with agile methods - Scrum, Kanban, Trello, Jira.
- Work methodology for developers - Git, version control.
- JavaScript - React, Vue, Firebase, Testing, Redux, TypeScript.
- Degree project - MongoDB, Express, Angular, Node.

CERTIFICATIONS

- Microsoft Azure Fundamentals - AZ-900   Aug 2024
- Microsoft Azure AI Fundamentals - AI-900   Sep 2024

PROJECTS

Course Assignment – Bortakväll   May 2024 - May 2024
- Developed a responsive web application using TypeScript and React..
- Integrated with a third-party API to fetch and display product listings.
- Implemented a shopping cart feature with functionalities such as adding/removing items, quantity adjustments, and local storage persistence.
- Built a checkout process where users can place orders and view order confirmations.
- Applied best practices for TypeScript, including the use of Generics and composite types.
- Ensured semantic HTML and mobile-first design for enhanced user experience.
- Code: https://github.com/paulinakiendys/KKTYS24D1-bortakvall
- Live: https://bortakvall.vercel.app/

Personal Project – Places   Feb 2024 - Feb 2024
- Built a responsive single-page app with React, using React Router for navigation.
- Employed React Context API for efficient state management, ensuring smooth data flow.
- Integrated a dynamic map with React Leaflet for interactive location features.
- Utilised Supabase for backend and database management, ensuring secure data storage.
- Integrated Supabase authentication for user registration and login.
- Code: https://github.com/paulinakiendys/places
- Live: https://places-omega.vercel.app/

Degree Project – Memories   May 2023 - Sep 2023
- Developed a web app using MongoDB, Express, Angular and Node.
- Implemented robust authentication with JSON Web Tokens and managed state with NgRx.
- Showcased UI skills using Angular Material, resulting in an efficient user experience.
- Server: https://github.com/paulinakiendys/examensarbete-server
- Client: https://github.com/paulinakiendys/examensarbete-client

VOLUNTEER

Frontend Developer   Jan 2024 - Present
Handlingar.se
- Responsible for the implementation of a design system
- Currently in the process of creating UI components using Storybook

SKILLS

Advanced in: .NET, Agile environment, Angular, Angular Material, ASP.NET Core, authentication, authorization, Azure, Bootstrap, collaboration, communication, constructive feedback, C#, CSS3, code review, debugging, English, front-end development, Git, GitHub, GraphQL, HTML5, Jira, Kanban, MongoDB, MySQL, Next, Node, NoSQL, npm, object-oriented principles, , Object-Oriented Programming (OOP), ORM Frameworks, Polish, problem-solving, React, React Context API, React Hooks, React Query, React Router, responsive web applications, RESTful APIs, RxJs, Scrum, software development, SPA, Spanish, Supabase, Swedish, Tailwind CSS, teamwork, troubleshooting, TypeScript, Vanilla JavaScript, Visual Studio Code, web application development
